

VARIANT LEADERSHIP

We will be replacing Leadership with the following feat. Please talk to me about who you are thinking to use.

COALITION LEADER You have a knack for attracting others to your cause.

Prerequisite: Character level 7th.

Benefits: You gain a cohort as described in the Leadership feat. This cohort is assumed to be working for you as a spymaster or similar function. In most cases, it will be assumed the cohort is busy and not available to be with you. However, there may be some instances this happens depending on the campaign.

Determine your leadership score as described in the feat's text but with the following exceptions: Instead of adding your Charisma modifier to your character's level to determine your base leadership score, you may choose add the Rank of any facet of your persona.

If you wish to conduct operations in another city, you may do so. These operations may be selected from the list, or you may discuss with the GM other opportunities. This can include an attempt to increase a persona level. If a cohort is involved in a persona increase attempt, it provides a +2 on the check (your cohort does NOT have to be in your city for this). If a cohort is in your city, then you receive a +2 on your Operation Check.

Finally, you do not gain followers as listed in the Leadership feat. Instead, you can perform the recover agent operation once per persona phase; this does not count as an operation.
