In'chi'lah Civillian Patrol C	Cruiser (New Siz	e 9 TI 12 Light Gray	Vehicle)
-------------------------------	------------------	----------------------	----------

		III CIII Iaii Ci	villian Patroi Cruisei (i	New Size 9 1 L 12 Light Grav Verlicie)
Skill Used	Flyer (grav) or Autopilot/3		3	The In'chi'lah Civilian Patrol Cruiser (CPC)was built by OCR Industries on Thengin for local use. It's
Max Speed Band	Fast (6)	Cruise Speed Band	High (5)	name takes from a distortion of ancient Lakota meaning "angel" important to the Thengin culture.
Max Speed Bracket	300500 km/h	Cruise Speed Bracket	200300 km/h	While built as a civillian vehicle, it was desiged to replace its cargo module with space for a light
Max (Cruise) Range	3000 (4500) km	Safe (Crush) Depth	0 (0) m	autocannon. This gives the In'chi'lah limited fire power, but without the capactity for reloading. Wit two crew (driver and gun) there is only space for four other passengers. Four gun ports on top an bottom allow passengers to use personal weapons as well, allowing for stunners to be used. Its dynamic form in a compact size made the CPC popular in a second hand market for travallers, packed a lot into a small frame. This actually lead to a non-governmental model being sold without
Agility	DM+3	Shipping Volume	4.50 ton	
Hull	18	Fuel/Battery Volume	0.90 ton	
Armor Type	Crystaliron	Weapons Space	0.25 ton	
Front Armor	20 (+25)	External Gear Space	0.25 ton	autocannon, but aftermarket modificaitons were common.
Sides Armor	15 (+25)	Cargo Space	0.00 ton	
Rear Armor	15 (+25)	Crew Space	1.50 ton	
Top Armor	15 (+25)	Crew / Passengers	2/4
